CEDE Emination for Remedial Action at Operable Unit 2 National Environmental Policy

PLART

S CONTROL

Bob Benedetti, Associate General Manager Environmental Restoration Management. EG&G Rocky Flats, Inc.

We are requesting that you re-evaluate the March 29, 1993, (93-RF-3544) National Environmental Policy Act (NEPA) Action Description Memorandum (ADM) for the Operable Unit 2 (OU-2) (903 Pad, Mound and East Trenches) Corrective Measures Study/Feasibility Study (CMS/FS). The worst case remediation scenario indicated the excavation of up to 550,000 cubic yards of soil from 41 acres. As already discussed with your staff, we are requesting a more realistic evaluation of alternatives. We feel that the worst case scenario presented is not realistic. Please resubmit an ADM for the OU-2 CMS/FS by August 31, 1993, or earlier if possible.

If you have any questions, please contact Scott Grace of my staff at extension 7199.

James K. Hartman

Assistant Manager for Transition and Environmental Restoration
